# IMPERIAL TABLE I.

## AREA, HOUSES AND POPULATION

*Notes—*1 The units in this and other Imperial Tables differ from those for which statistics were given at the last Census in the following particulars (i) A new Division called the Bombay Suburban Division has been constituted consisting of one District called the Bombay Suburban District (ii) The Thana District is reduced by the extent of the aforesaid district It is to be noted that in these Tables the Bombay Suburban District means the South Salsette Taluka only, as that Taluka stood on 18th March 1921 (iii) A revision of the Districts of Sind during the interval has resulted in the constitution of the District of Navabshah, and alterations in the boundaries of Hyderabad and Thar and Parkar (iv) The Mevas Estates of Khandesh have been removed from the sub-head States and Agencies, where they appeared as “Khandesh Agency” in 1911, and added to the West Khandesh District (v) The units for presentation of the figures of States and Agencies have been revised in such a way as to show separately all States having a population of more than one lac

2 The area shown in this Table is 187,074 square miles, an increase of 151 square miles on the figures given in 1911 The causes for this increase are shown below —

3 In Column 3 “Towns” means places treated as Towns or Cities for the purpose of Imperial Tables IV and V

4 In Column 4 “Villages” means Revenue villages other than (i) those which are wholly absorbed in Cities or Towns, and (ii) those which on the night of the Census contained no population

5 In Columns 5, 6 and 7 “Occupied Houses” means Census Houses The term is not possible of a single definition In the villages the Census House was the commensal family But any building which contained a single individual on the Census night was reckoned as an “Occupied house” In Bombay City the Census House was the whole building under one undivided roof In other cities and towns various other intermediate definitions were used For a full discussion see the last portion of Chapter I of the Report

6 In Columns 9 and 10, etc, “Urban” means persons enumerated in those places which are classed as Cities or Towns for the purposes of Imperial Tables IV and V “Rural” means population enumerated in all other places

## CITIES AND TOWNS ARRANGED TERRITORIALLY, WITH POPULATION BY RELIGION

Certain places treated as Towns in 1911 have been omitted on this occasion, and certain new places added. The following changes must also be mentioned —

*Ahmednagar Cantonment* — Since 1911 the place called Bhungar has been included in this Cantonment

*Satara* — In 1911 three sub-units were shown, Municipality, Cantonment and Suburbs. The Cantonment has since been abolished, and the area covered by it is merged in the Suburban Municipality. There are therefore now two sub-units only, namely, the Satara Municipality and the Suburban Municipality

*Jacobabad* — The Cantonment is abolished, and its area included in the Municipality

*Bhuj* — Ditto

Some places which were Municipalities in 1911 have ceased to be so, and some new places have become Municipalities. Existing Municipalities are indicated in accordance with information obtained from the local authorities

### SIND DIVISION

In Sind in 1911 no suburbs were shown, and it is clear that the definition of suburbs applied to the rest of the Presidency was not there brought into force. At the present Census an attempt has been made to get the required information. But the matter is rendered difficult by the confusion in Sind between the definition and the unit of Land Revenue to both of which the term village at times applied. So far as possible the definition given in the first note has been applied and cases in which it is not exactly applicable are indicated in the note below.

### *Karachi District*

(a) *Karachi*—Suburbs means the extra municipal population of Karachi (963) and the population of Kala Sagar (40)

### *Sindh District*

## IMPERIAL TABLE VI --RELIGION

The following are the figures included under "Others" —

Religion	District.	Persons.	Males.	Females
Indefinite Beliefs (Agnostic)	Bombay City	1	1	
Do (Theosophist)	Ratnagiri-(Weral Mal- van Tal	24	13	11
Sanjogi	Upper Sind Frontier	64	30	34
Religion not returned	Poona	1	1	

Indefinite beliefs were at previous Censuses included under Christian

In the 1911 Tables there was a Head "Hindu-Mahomedan", which included Matias, Momnas, Imamshahi Sheikhs, Molesalams, Sanghars and Sanjogis. At the Census the first five have been taken to Musalman, and the last (Sanjogi) has, as in 1901, been taken to "Others". The fact that only one person is shown as "Religion not returned" does not mean that Column 4 of the Census Schedule was in all other cases filled up. It was, on the contrary, often blank. But in all other cases the remaining entries, such as Caste and Name, afforded a clue to the religion, which was accordingly filled in, in the Abstraction Offices.

The figures for Sikhs are unreliable. Sikhs sometimes return themselves as Nanakpanthis, and are then classified as Hindus in the Abstraction Offices. The figures for Animist are also unreliable, and depend on the caprice both of the Enumerator and the Abstraction Office.

Hindu-Arya means Member of the Arya Samaj, and Hindu-Brahmo means Member of the Brahmo Samaj. Here also the figures are unreliable, since many members of these Samajes return themselves, or are returned by the Enumerator, as simply "Hindu", and are then taken to Hindu-Brahmanic.

Lingayats are included under Hindu-Brahmanic.

Sects of Christians are shown in Table XV, and sects of Musalmans and Jains are shown in Subsidiary Tables in the Report Volume. Sects of other religions were not recorded.

## IMPERIAL TABLE X

## LANGUAGE

The languages of the Presidency and other Indian Languages are not arranged in alphabetical order, but in the order in which they come in the scheme of classification adopted by the Linguistic Survey

*Balochi* includes Makrani

*Lahnda* means Western Punjabi, and includes Multani and other synonyms

*Siraiki* and *Jathi* are not a true language or languages But since these names may be used either of Sindhi or Lahnda, and it is therefore impossible to allocate the returns to either head, they are kept distinct

*Thareli* or *Dhatli* and *Kacchi* are both treated as dialects of Sindhi in the Linguistic Survey, but are here kept distinct because of their limited regional distribution and for other causes

*Konkani* means the language usually known as Goanese

*Hindi* means Western Hindi, and includes Urdu, Hindustani and Musalmami

*Rajasthani* includes Marvari, Mevadi, Malvi, etc

The above notes are as much as can be given here For a full discussion of the terms and full explanation of what is included under each head reference is invited to the Report

## IMPERIAL TABLE XV

TERRITORIAL DISTRIBUTION OF THE CHRISTIAN POPULATION BY  
SECT AND RACE

*Distribution by Race*—The term “allied races” is loosely used to cover Americans, Armenians (for the number of whom see the Note to Table XVI), and any other foreigners, the number of which would at any Census be so few as not to justify the opening of separate Race Headings. On this occasion the 42 Males and 55 Females in the Kolaba District, shown as “*Syrian, Nestorian*” by sect, are included under “European and Allied Races” by race. These persons were refugees of the Christian community usually known as “Assyrian,” and resident before the war on the Perso-Turkish frontier. One Japanese Christian from Ahmedabad has also been included.

*Distribution by Sect*—The main Sectarian names prescribed for this Table are those given in the headings of the Sect columns. But the following prescribed main Sectarian names, of which no returns were received, are omitted—*Abyssinian, Quaker, South India United Church*.

In all cases under each Sect there would normally be three Race headings, with separate figures for each. But to save space, wherever, in the case of any Sect, returns were received under only one or two of the race headings, the remaining race heading or headings have been cut out. And, where a Sect was only returned under one race heading, the Total Column is also cut out.

*This Table was No. XVII in 1911*

## IMPERIAL TABLE XVI

## EUROPEANS AND ALLIED RACES AND ANGLO-INDIANS BY RACE AND AGE

Table XV showed the distribution of Christians including Indian Christians by Sect, each Sect being divided into Race Headings

The present Table has nothing to do with Sect. It omits Indian Christians, and deals with the rest by Race and Age. It consists of two main parts—(a) Europeans and Allied Races including Armenians and (b) Anglo-Indians

For the definition of "Allied Races" see the Notes to Table XV. Part (a) is divided into 1 British Subjects and 2 Others. Armenians have been included in "Others." The age distribution of Armenians is as follows:—

District	All Ages	0-10	10-16	16-18	18-30	30-40	40-50	50 and over
	M F	M F	M F	M F	M F	M F	M F	M F
Bombay City	81 59	10 4	11 16	3 0	14 12	20 16	17 3	1 8
Bombay Suburban District	7 9	0 4	1 0	0 0	0 2	0 0	2 0	0 7
Satara	0 1	0 0	0 0	0 0	0 0	0 0	0 0	0 1
Kolaba	0 4	0 0	0 0	0 0	0 0	0 4	0 0	0 0
Total	84 73	10 8	12 16	3 0	14 14	20 20	19 3	6 12

Part (b) is not divided into British Subjects and Others, since all Anglo-Indians have been taken to be British Subjects

Actually the classification of any person or persons into British Subjects or Others is a matter of inference, the Census schedules having contained information as to Race and not Political Nationality. But the errors, if any, would balance out

*This Table corresponds to Table XVIII of the last Census*

## PROVINCIAL TABLE 1—cont'd

## PROVINCIAL TABLE I.—

[illegible]

## PROVINCIAL TABLE II.

NOTE I—This Table is the same as last time except—

(1) the Totals for the Cities have been separated from the Totals for the remainder of the Taluka in which each one lies.

(2) Columns 2 to 7 of the Table of 1911 have been expanded into 8 columns, columns 8 to 19 being renumbered as 10 to 21 accordingly. Last time the Hindu, Jain and Animistic Castes were divided into three classes—Learned, Backward and Rest. This time they have been divided into four classes as follows—(i) Advanced (ii) Intermediate (iii) Backward and (iv) Rest. A complete list of Castes for the first three classes is appended. It is based on the Caste Index. Where any caste is mentioned the term given includes the synonyms shown in the Index. The fourth class will comprise all castes not shown in the list. This will mostly be strangers from other Presidencies, e.g., entries such as "Pardehl" very rare castes, and castes not known.

II In the case of Haveli Taluka and Mulshi Petha the figures of total population in Provincial Table I were Haveli Males 61,212 Females 59,690 Total 120,911 Mulshi Petha, Males 13,309 Females 12,315 Total 25,624. Those figures are the correct totals. The figures shown in this Table differ slightly for the following reason. The Railway Coolies Camp near Chunchwad Station in the Haveli Taluka was enumerated by the authorities of the Tata Hydro-Electric Company which is constructing the light railway and as the head office of the Company was in the Mulshi Petha the enumeration book for the Coolies Camp was amalgamated in the head office returns and went into the Mulshi Petha figure incorrectly. The mistake was not discovered until sorting was completed. It was then possible to correct the figures of Total population by adjustment. But to have corrected the figures for this Table would have involved a careful redistribution of the slips in the sorting units Haveli and Mulshi and their complete re-sorting for age, caste and literacy. The delay and expense involved would have been considerable and could not be faced. It is hoped that the very small proportional errors in this Table will not be sufficient to render it useless as regards the Taluka and Petha mentioned.

III Parsees are included under "Others" but the Talukas in which they exceed 500 are shown below —
